REVIEW

on the educational program for the students of the

first (bachelor) level of higher education

in specialty 081 "Law",

field of knowledge 08 "Law"

at the National University "Yury Kondratyuk Poltava Polytechnic"

The educational and professional program in the speciality 081 "Law" for training of students of the first (bachelor's) level is relevant and meets the public needs to train qualified law specialists.

The reviewed educational and professional program was prepared by the scientific and pedagogical staff of the Department of Public Administration and Law, at the Educational and Scientific Institute of Finance, Economics, Management and Law, in cooperation with employers and is aimed at the formation of such essential learning outcomes as creative thinking, leadership and communications, the ability to respond to changes quickly and qualitatively solve the tasks set for the implementation of law relations at various levels.

The educational and professional program clearly defines the purpose, tasks, content and technologies, the organisation of the educational process, the assessment of the quality of training of applicants, the general and special competences formed and the expected learning outcomes by the qualification requirements for the professional activity of a graduate of the first (bachelor's) level of higher education in specialty 081 "Law".

Professional competences have a practical nature and can be used in the professional activities of future specialists in the field of law.

In general, there are reasons to believe that the reviewed educational and professional program meets the requirements and scientific-practical and educational characteristics defined in it and can be recommended for training students of the first (bachelor's) level of higher education in the speciality 081 "Law" of the National University "Yury Kondratyuk Poltava Polytechnic".
