

Review

for the educational and scientific program "Economics" for the preparation of a Doctor of
Philosophy
in the specialty 051 «Economics», implemented at
the National University «Yuri Kondratyuk Poltava Polytechnic»

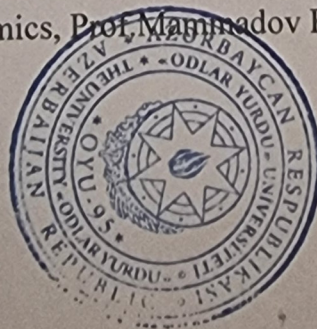

The peer-reviewed educational and scientific program in the specialty 051 «Economics» provides for the allocation of general and professional competencies, which are learned by applicants through mastering the relevant educational components. This will allow applicants to carry out a scientific study of the problem area and, having scientifically substantiated, offer ways to solve it.

At the same time, the interdisciplinarity of research and the implementation of high-quality scientific intelligence requires fundamental knowledge from the applicant, which can go beyond the economic disciplines. Providing the opportunity for applicants to choose disciplines that form professional competencies within the framework of the research topic will only strengthen the educational training of applicants for this educational program.

The educational and scientific program «Economics» for the preparation of a Doctor of Philosophy in the specialty 051 «Economics» at the National University «Yuri Kondratyuk Poltava Polytechnic» is scientifically based, formed according to the requirements of educational standards, saturated with practical tasks. It takes into account the creativity of thinking of modern scientists, rapid changes in the educational and scientific world space.

The training of applicants for the educational and scientific program «Economics» for the preparation of a Doctor of Philosophy in specialty 051 «Economics» at the National University «Yuri Kondratyuk Poltava Polytechnic» meets all regulatory requirements.
